

## 4a. Calculation Worksheet Instructor's Guide

---

### Set-up

- Make copies of "Fruit and Vegetable Calculation Worksheet" for each trainee
- Secure handheld calculators for each trainee (optional)
- Review answer key

### During the Activity

- Explain that the following exercise will help them practice calculation skills so they can be useful in assisting and coaching WIC customer using WIC fruit and vegetable check
- Hand out worksheet to each trainee
- Read directions and answer questions
- Set time limit and have trainees begin working
- Assist as needed

### After the Activity

- Review correct answers
- Have trainees add other correct options to offer for each exercise
  - Emphasize need to monitor dollar amount of purchase on WIC fruit and vegetable check
  - Emphasize need for patience and assistance in helping WIC customers learn how to select amount of produce for maximum value on WIC check
- Ask for questions about WIC fruit and vegetable checks
- Remind trainees about which items from produce department are NOT approved for use with WIC fruit and vegetable check
